# HPE T1500 Gen5 INTL UPS with Management Card Slot (Q1F52A)

## Uninterruptible Power System

### What's new

- LCD offers an industry leading graphical interface that provides critical UPS information in a single screen view.
- Remote access through an optional 1GbE network management adapter.
- Slim tower design help to conserve valuable space.

### Overview

Do you need more reliable power with advance battery management in a space saving design? HPE Line Interactive Tower Uninterruptible Power Systems deliver clean power with an advanced battery management capability. Computing environments are expected to deal with the frequencies and severities of power outages, increased power demands from the public and private cloud, software as a service (SaaS), and mobile computing plus online services and applications while maintaining tight cost controls. HPE Line Interactive Tower

Uninterruptible Power Systems was designed to meet these needs and exceed expectations as the industry requires a reliable, efficient and easy-to-use UPS within your computing environment.

## Features

### **Delivers Power Protection and Management for IT Environments**

The HPE Line Interactive Tower Uninterruptible Power Systems models lower your power protection cost by providing up to eight (8) power outlets per UPS, allowing you to safeguard your IT and office equipment.

Standard features include an intuitive front panel display, enhanced battery management (EBM), network transient protection, and serial and USB ports for data exchange with the host computer.

Includes (at no additional cost) HPE Power Protector Software that provides the flexibility to monitor power conditions and control the HPE Line Interactive Tower Uninterruptible Power Systems both locally or remotely.

Backed by a 3-year limited warranty and an exclusive 30-day battery pre-failure warning, which provides notification from the HPE Power Protector software of an impending battery failure.

### **Increased Efficiency and Capacity to Maintain Uptime and Business Continuity**

The HPE Line Interactive Tower Uninterruptible Power Systems models provide from 1.5kVA (R1500 G4) up to 7.2kVA (R7000) of output power in as little as 4U of rack space.

HPE Power Protector Software and an optional UPS Network Module enables you to monitor and manage power through HPE Systems Insight Manager and other SNMP management programs or via a standard Web browser (UPS Network Module optional on R1500 G4).

Includes a front panel LCD display for ease of management.

Enhanced system flexibility with two independently controlled load segments.

### **Simple and Fast Integration**

HPE Line Interactive Tower Uninterruptible Power Systems batteries can be hot-swapped safely without ever shutting down equipment.

LCD offers an industry-leading graphical interface that provides complete critical UPS information in a single screen view.

**Technical specifications****HPE T1500 Gen5 INTL UPS with Management Card Slot**

<b>Product Number (SKU)</b>	Q1F52A
<b>Form factor</b>	Tower
<b>Power output</b>	Operating Voltage Settings Power Out (VA/Watts) 220V/230V/240V 1500VA/1050W 200V to 208V 1395/990W
<b>Power distribution</b>	Single Phase
<b>UPS Battery type</b>	Maintenance-free, sealed, valve-regulated lead acid (VRLA)
<b>Minimum dimensions ( H x W x D)</b>	(WxDxH) 150 x 410 x 210 mm
<b>Weight</b>	16.1 kg
<b>Warranty</b>	3 year limited warranty
